VOL-1

BRAND INTRODUCTION

indian heart, worldwide vision

From its headquarters in Morbi, it designs, develops, manufactures and distributes ceramic tiles for two commercial sizes: 60x120cm & 80x160cm. Pollens Granito owns production plants in Morbi with a capacity of over 9 million square meters per year. It produces more than 4,500 Designs that are distributed worldwide through sales offices and warehouses located in Italy, United States, Russia, Germany, India and Hong Kong.

Pollens Granito has a logistics organization geared to respond immediately to the needs of the global market; its skilled team has a market oriented approach, it provides tailor made solutions from design to tiles installation.

Pollens Granito operates in more than 70 countries with large points of sale. In some strategic areas, its international strength is underlined by specific divisions. In order to promptly fulfil the orders that arrive from 4 different continents.

A journey into the heart of Italy is the underlying theme of Landscape, the new Refin collection inspired by the limestone central to the character of the most typical Italian countryside. A simple, tasteful collection, featuring natural colours and elegant vein patterns, tone-on-tone shade variation and a luminous chromatic range. The understated beauty of the sedimentary rock of which so many Italian villages and cathedrals are built is the key-note of a strongly contemporary collection, influencing a classic material with sophisticated inputs from the very latest trends.

Refin: the unseen face of marble

Marble has always played an important role in art and architecture, embodying style and uniqueness in every furnishing solution.

The Collection brings together world's most exclusive marbles and reinterprets them for contemporary taste in a complete, original project. From the timeless elegance of Carrara to the strong personality of Bianco, the expressive power of Stone, the intensity of Black and the sophistication of Sahara. Natural beauty and creativity merge in this unusual, sophisticated project, which offers a new aesthetic, shaped by blending the elegance of marbles with the transparency and fluidity of resin.

ADVANTAGE & FEATURES

Nature, technology, science and design. Top quality ceramic surfaces by Pollens Granito are compact and impermeable, because they're made from pure minerals pressed and sintered at more than 1200°C. The best choice, for durability, safety, hygiene and beauty.

Versatile Size

Available in the grand size, the collection presents you with a perfect tiling solution to create seamless interiors.

Safe & Secure

Non-porous, hygienic, stain and scratch protected, the tiles from this collection are also ice and thermal shock-resistant.

Design Varaities

Available across a spectrum of patterns, the collection offers variety for all kinds of spaces and preferences.

More Sustainable

The collection is made from exceptionally durable and recyclable material, giving it an edge with its ecological and ecofriendliness.
